<sup>1</sup> *All* students are *required* to take the Clemson Math Placement Test (CMPT) *prior* to registering for math courses. See advisor for information on course selection. Possible math sequences include: MTHSC 101-203, 101-102, 101-106, 102-207, 106-108, 106-207, 106-301, 106-309, 207-301 or 207-309. EX ST 301 may be paired with MTHSC 101, 102, 106, or 207.

<sup>2</sup> Students possessing advanced knowledge and skills with the Internet, MS Word, Excel, and PowerPoint should consider the test-out option through examination for CPSC 120. Details about this option are located on the Advising Center's FAQs page (<http://business.clemson.edu/advising/webpage/home.htm>).

<sup>3</sup> Biology 110/111 (5 credit hrs each) may be substituted. In this case, the extra two credit hours will be counted toward the final, non-sequence science requirement.

<sup>4</sup> See Psychology Department approved course list (in Handbook or on departmental web page). Courses used to fulfill the Humanities Requirement (E.1 & E.2), Social Science Requirement (F), or Major Area cannot be used to meet this requirement. However, minor courses may be used to fulfill the Cultural Awareness requirement.

<sup>5</sup> See General Education Humanities/Literature (E.1) Requirements.

<sup>6</sup> Three additional science courses are required beyond the core biology sequence. Six of the nine hours must come from a two-semester sequence of a science other than biology (see General Education Requirements area D). Extra credit hours resulting from labs for either science sequence may be counted toward fulfilling the final, non-sequence science requirement.

<sup>7</sup> See General Education Social Science (F) Requirements. Course must be a social science other than psychology.

<sup>8</sup> See General Education Mathematical Science (C) Requirement.
